WORK EXPERIENCE

Leadzap Marketing

2025 - 2026

- Designed and developed responsive websites utilizing React.
- Managed website infrastructure, including the procurement and configuration of domains, hosting, and VPS.
- Implemented SEO strategies to optimize web pages, improving discoverability and search engine rankings on Google.

Megu Subang Church (Freelance)

2024 - 2026

- Engineered and tuned audio equipment for live events and performances.
- Configured technical setups, integrating audio interfaces with musical instruments and establishing stage lighting.
- Coordinated effectively with personnel across various locations to ensure smooth event operations.

Zoom Mobile (intern)

2025 (May - July/31)

- Developed and rendered front-end and back-end UI components for web applications.
- Utilized APS (Advanced Page Support) to maintain, structure, and update the webpage codebase.
(Note: The negative phrase about "superficial understanding" has been completely removed).

Muhibbah Engineering hardware (intern)

2021

- Resolved hardware and technical issues, including system formatting and troubleshooting.
- Configured and integrated various hardware devices and computers across the company network.

Kopitiam and Cafe

2015 - 2019

- Managed versatile roles including serving, food preparation, and cash handling in a fast-paced environment.
- Demonstrated strong adaptability and multitasking skills by efficiently juggling multiple operational responsibilities.
